*"We believe the QMS approach to be practical, cost effective and would have no hesitation in recommending your services to anyone."*

A.P. Stone, Managing Director - Business Travel Plus.

## The fast and simple way to OHSAS 18001 Certification

### What is OHSAS 18001?

#### Occupational Health & Safety

Concern about Health & Safety has been growing rapidly in recent years. High profile incidents such as rail crashes may grab the headlines but, at a local level, increasing enforcement by the Health & Safety Executive (HSE) raises the likelihood of Directors and Managers being held personally liable for breaches of Health and Safety legislation.

#### The answer is OHSAS 18001

The OHSAS 18001 Occupational Health & Safety Management Standard was introduced in 1999 as a way for organisations to demonstrate their commitment to Health & Safety Management and show their customers that health and safety matters are of paramount importance to their organisation.

### How long does it take?

You'll be surprised! It only takes 45 days. QMS has developed a unique approach to OHSAS 18001 Certification by effectively eliminating the need for you to employ a consultant.

Our proven method combines the task of preparing the Manual and undertaking the assessment at the same time. We have developed a unique 'one-stop shop' concept to OHSAS 18001.

### What's involved?

Our assessor examines the activities of your business that directly affect health and safety management. Where necessary, a programme will be developed and agreed to rectify areas of non-compliance. Because of our 'Keep it

simple' approach, the assessment normally takes between one and two days.

On successful completion of the assessment, we issue an OHSAS 18001 Certificate and include your firm on the 'QMS Register of Occupational Health & Safety Assured Businesses.'

You will also receive an Occupational Health & Safety Manual plus advice on obtaining maximum publicity and marketing benefits from your achievement. An annual external audit is required to maintain your OHSAS 18001 Certification.

### Why use QMS for your OHSAS 18001 Certification?

Our 'Keep it simple' approach completely eliminates the jargon, red tape and petty rules often associated with OHSAS 18001. This means we can:

- ✓ Reduce the time taken to obtain Certification
- ✓ Cut the cost of Certification
- ✓ Eliminate red tape and bureaucracy
- ✓ Reduce management time required
- ✓ Reduce the cost of maintaining Certification

On Certification, you will receive the following:

- ✓ Registration Certificate
- ✓ Occupational Health and Safety Manual
- ✓ Artwork for Logo
- ✓ Publicity Advice

Our unique assessment method saves you £000s and greatly reduces the time required. The fully inclusive fee shown is ONLY payable if you achieve OHSAS 18001 Certification. No certificate - No fee. So what have you to lose, contact us today and give yourself that competitive edge!

### What our clients say:

*"The method used by Q.M.S. supports what you already do in your business and takes a minimum amount of time to implement and manage. Having the accreditation will give us the opportunity to move our business to another level, both in operational efficiencies and increased sales opportunities"*

David Paley, Managing Director - Countersales UK Ltd.

*"Our conversion rate from initial enquiry to actual contract status has increased by at least 50% since you helped us".*

Geoff Howard, Partner - Security 2000DJS.

*"Our last experience with a QA Consultant (about 10 years ago) cost us £20,000, over three solid mind-numbing weeks of management time, all to produce a completely unusable door stop! QMS by contrast, gave us a refreshingly simple service that produced a QAM that actually works at a fraction of the cost."*

Gerald Tobias, Group Managing Director - GTA Consulting

*"Would highly recommend any business attempting accreditation to use services of QMS and will duly pass my comments to business friends etc on the commitment and assistance of QMS."*

Peter McGill, Director - PTM Limited.

### Who is QMS?

QMS Quality Management Systems (a division of QMS International plc) is an International Organisation specialising in ISO 9001, ISO 14001 and OHSAS 18001 Assessment and Certification. We have issued more than 14,000 Certificates in over 50 countries.

We have been inspected and accredited by a third party International Accreditation Board. All our Assessors are experienced business people who use a practical and no-nonsense approach.

Our clients come from a wide range of activities including Government Departments, Local Authorities, Hospitals, Manufacturing, Engineering, Distribution, Construction, Service Organisations, the Professions and Charities.

### No Certificate - No Fee

Our unique Assessment method saves you £000s and greatly reduces the time required. The fully inclusive fee shown is only payable if you achieve OHSAS 18001 Certification.
