

Your all-in-one ISO Management System solution

QMS Connect delivers all the tools you need to achieve and maintain ISO compliance.

With simple navigation and intuitive processes, accessible online 24 hours a day, QMS Connect helps you manage, track and report ISO metrics, driving continuous improvement across all aspects of your Management System.

Benefits of QMS Connect:

ENHANCE REPUTATION

- Instantly access and follow best-practice standards
- Understand and deliver on customer expectation
- Display digital ISO/BS badges

QMS Connect makes it even easier to achieve ISO Certification and get ahead of your competition. Once you sign up with QMS you will gain access to the cloud-based platform straight away, where you will find the ISO Checklist. Once logged in, you can begin work immediately. To help keep you on track, we have included a library of templates, guides and videos – but don't feel obliged to do this, our consultants are here to help and will be more than happy to guide you during our consultancy visit.

INCREASE EFFICIENCY

- Utilise automated task management functionality
- Access real-time reporting
- Involve and engage your team

QMS Connect is built to deliver a management system that meets international, ISO standards of best-practice. This means that it features real-time task management functionality for audits, management reviews, risk calculations, customer complaints and document control. It also benefits from user-friendly dashboards, helping you to assess performance on-the-go and to make more powerful business decisions.

SAVE MONEY

- Improve visibility of operational inefficiencies
- Prevent service delivery failings before they reach the customer
- Reduce inspection activity

You can improve visibility of compliance and risk, throughout your organisation by engaging your team with your ISO Management System, through the simple, easily navigated interface of QMS Connect. You can spot system failings as they happen (if not before), reduce inefficiencies and stamp out duplicated tasks – which contribute towards those all-important cost savings.

ATTRACT MORE CUSTOMERS

- Deliver on customer expectations
- Improve supply chain performance
- Increase supplier confidence

While the ISO Certification itself will open new markets for you, with improved businesses processes come happier customers, who are more likely to use your services again and recommend you to others. QMS Connect helps you to manage customer feedback so that, whether positive or negative, it can play its part in helping your business become even more attractive to potential markets and customers.

MEET LEGAL OBLIGATIONS

- Utilise risk reporting functionality
- Quickly identify and respond to any relevant Acts/ Regulations/ Codes of Practice/ Standards changes

QMS Connect helps to keep you in control. The secure cloud-based platform has inbuilt reporting functionality that tracks risks and areas of non-compliance, in real-time, so that you remain up-to-date on all aspects of your business. By implementing changes and rectifying areas of concern, before a breach happens, you will be able to remain compliant with legal obligations and reduce the risk of fines, as well as any subsequent legal costs.
